

A+ Exemplary Programs Award APPLICATION 2010-2011

General Information: The Arizona Educational Foundation created the A+ Exemplary Programs Awards in 2004 to expand recognition of educational excellence in schools throughout Arizona. The Program's purpose is twofold:

- To identify and give public recognition to outstanding programs and practices in public schools in Arizona;
- To facilitate communication and sharing of outstanding programs and practices within and among schools based on common criteria related to success.

Overview: Applicant schools provide demographic information and describe in detail a current program or practice. These programs or practices represent exemplary, innovative and effective educational practices and are characterized by clearly defined objectives related to identified student needs, documentation that the program has met its objectives and the ability to be replicated by other schools. Programs eligible for recognition must have been in existence for at least three years; they are not limited to programs whose participants are exclusively students. For example, a program that serves and/or involves parents, staff or other community members might qualify for recognition as long as students are impacted. **Commercial programs from vendors are not eligible for consideration. Application deadline: 5:00 p.m. Monday, November 29, 2010.**

The selection committee is comprised of representatives from the education and business communities. The committee reads, evaluates and scores all applications and conducts site visits to selected schools in order to choose the winners. A school is limited to one application per academic year.

Schools whose programs are selected for the A+ Exemplary Programs Award will receive **\$100** and a plaque or certificate. Selected A+ Exemplary Programs serve as models for excellence that can be replicated by schools throughout the state.

Evaluation Criteria

For a program to receive a site visit, it must be deemed a potential model for other schools to replicate and adapt to their own population. The A+ Review Panel rates responses to each of Sections A-F of Part III as follows: “exemplary,” “adequate,” or “inadequate.” At least 4 of the 7 sections in Part III must be rated “exemplary.” If any section is rated as “inadequate” the program is ineligible for the award.

Prompts under each section title do not necessarily serve as a comprehensive checklist, but contain examples of what may constitute an “exemplary” response. Throughout Part III, in order for your responses to receive an “exemplary” rating, you must provide substantive evidence that supports statements and claims made in the application. Evidence should include but not be limited to:

- Rich examples that illustrate your school’s unique ability to serve its community
- Evidence that demonstrates the program goes above and beyond the expected norm for schools
- Supporting quantitative and anecdotal data
- Participation rates in programs

Eligible programs are not necessarily limited to programs that include student participants, although the program must impact students. The A+ Exemplary Programs Review Panel looks for indications of creative problem solving and/or a willingness of program leaders to think outside the box in meeting program participants’ unique needs.

To be eligible for the A+ Exemplary Program award, a program must have been in operation for **three (3)** full years.
