

School Safety Professional Learning Program

Self-paced online courses. Available now.

Four online courses | No cost (Arizona-only) | Limited spots

What does it mean to create a safe school?

It starts with people like you. Strengthen your school's capacity in developing collaborative, team-based approaches to crisis prevention and response. Take one or more online professional learning courses to learn how to:

Blend safety and behavioral support strategies.

Identify early signs of student crises.

Work more effectively with school safety personnel.

Apply best practices to your school or district.

Designed for you

- District safety administrators
- School resource officers
- Principals/assistant principals

Quality programming

- Developed by school safety experts and practitioners
- Based on evidence-based approaches
- Created to align with state mandates for student health and safety
- Designed by ASU experts in school safety

For working professionals

Each self-paced online course is designed for busy professionals, letting you learn on your own schedule. Choose one course or complete all four. Engaging content and interactive exercises help you apply and retain key concepts.

What to expect

Fully online, self-paced

Learn when it's convenient for you, according to your schedule (approximate timeframe is 15 hours).

Certificate of completion

Recognizes participation and completion in the course.

Micro-credential (optional)

A way to demonstrate skills and competencies through an independent assessment.

Foundational courses

- **Roles and Responsibilities of School Resource Officers**
Understanding the roles, responsibilities and duties of school resource officers (SROs).
- **De-escalation and Crisis Response in School**
Identify common triggers and early warning signs of student crises, understand different types of school-based crises and assess their severity to determine appropriate interventions.
- **Conceptual Foundations of School Safety Planning**
Expectations and roles of school safety staff, including school resource officers, mental health professionals, and others.
- **Collaborating to Advance School Safety**
Develop collaborative dynamics among school stakeholders, such as parents, educators, administrators, mental health professionals and school resource officers. Explore case studies and exercises practical for applying strategies in group settings.
